The Cha man stated that in the meantime. constables had been sent to patrol road, and that a meeting of residents about to be held at the Country Club make arrangements for having the road gularly policed. The loafer is not unknown nuisance in Hongkong : but town has been pretty free of the pest some time past. There is little or no cuse for those who here encourage loafer. Every meal, every 25 cents give is but too often little clas than contribution towards the upkeep of vi and idleness, and tends to the disorders of our municipal peace. No European American sailor out of employment, or a other man for that matter of it, no starve in Hongkong or be reduced to loafin if he is willing to work. There is, in t Consuls and in the Refuge for Destitut which is carried on in connection with Gaol, ample provision made for dealing wi all who may be in the position tho men represent themselves to be in wh come round to our residences sometime when the master is known to be sbeen demanding, in true highwayman styl bread and meat and drink and a dollar an some half-worn-out clothes and a few other little things. Little morey should shown to such scamps; their statemen as to their history and their hardships &c are as a rule brazen falsehoods; the us to which they continually devote the mone given them and the proceeds of clothes & provided for them are known to be viciou and brutalising; and altogether there is little good, no injured innocence and not muc suffering humanity amongst them. Shanghai is to take any decisive steps rid herself of these parasites on Society then we may fairly expect some influx them here; and it may be well that it public should be warned most urgentl against encouraging any one of those mos

We may add that chit to the "Manager, Temperance Hall, instructing that official to disburse a few "square meals" to the bearer, is the bes means of getting rid of the more respectable loafer; but it is, as we have suggested above. something more than indiscretion to relieve in the way they desire to be relieved, this class of men, a large proportion of whom cannot be better described than as low bullies, and it only tends to the encouragement of insolent behaviour towards ladies left virtually unprotected in our homes. WE take the following typhoon news, to hand this afternoon, from the Shanghai Nows of the 28th ult. :-

The China Navigation Co.'s steamer Tientsin, Captain Robinson, which arrived yesterday afternoon from Swatow and Amoy, reports having experienced a strong typhoon. She left Swatow at 5 p.m. on the 21st instant, with fresh N. E. winds and high sea; arrived at Amoy at 11.40 a.m. on the 22nd instant, and left at 4.40 p.m. same day; had strong N. E. winds and head sea all the way, till at 9.30 a.m. on the 25th, she anchored in Barren Bay, for shelter, during a strong typhoon. proceeded at 5 s.m. on the 26th inst., with strong N. W. winds and high sea; and arrived at Shanghai at 3 p.m. on the 27t instant,-We hear that the S. S. Orestes, which arrived yesterday from Hongkong, He succeeded ingoing one length of the bath, had very rough weather all the way.

THE opium revenue returns show that the last sale of Bengal opium produced Rs. 62,18,775, or Rs. 15,18,725 better than the estimate. The last month's pass duty at Bombay yielded only Rs. 14,82,250, or worse than the estimate by Rs. 5,30,750. The total net sum, therefore, is Rs. tickled and pleased with the result of the 77.00.975, or for the month Rs. 9,87,975 in excess of the sum estimated for. Taking the results of six sales of Bengal opium, and hope the Callythumpians have not made their the receipts during five months from pass last appearance under the auspices of the duty at Bombay, we find that Bengal produced Rs. 93.78.622 more than the estimate, and Bombay Rs. 29.18.025 worse than the estimate. The net result, better, is Rs. 64,60.597, and the total amount received on account of opium up to the 4,58,38,597.

WRITING on the two real live Lords now in tance of 49 feet. Shanghai, the Mercury says :--

Lord Zouche holds the eighth barony on the roll of the peerage of England. It was greated in 1308. He was born in 1851, and succeeded his father in 1873, as Baron Zouche of Haryingworth. The late Baron was once private secretary to Lord Stratford de Redcliffe (then Sir Stratford Canning) at and Bunker took the lead, A. P. Stokes start-Constantinople, and commissioner at Erzeroum. He distinguished himself in the literary world, by writing one of the pleasantest books about the East we ever recollect reading, "Visits to the Monasteries of the Levant." He also published a volume on "Armenia." They are both on the catalogue of the Shanghai Library, but the first is "missing."-Lord Harris is the celebrated cricketer, who was captain of the English eleven that went out to Australia. and who were treated so disgracefully by the Colonials. He is captain of the Kent team. It will be a pity should our Cricket Club not have an opportunity of showing their paces before such a distinguished judge. The barony Lord Harris has inherited is not so old as the other nobleman's but it is of very distinguished origin. The first baron was commander of Seringapatam and was elevated to the peerage as Baron Harris of Seringapatam and Mysore in 1815, for his services in India.

THE ROBBERY FROM BELLEVUE. The case in which a Chinese woman named Ng Aking was charged with being unlawful possession of a gold watch belonging to Mr George O. Scott, was resumed

Inspector Perry was recalled and detailed the circumstances of the finding of the watch, and the arrest of the prisoner. Defendant said that on the 11th ult. she met Police Sergeant Pang Loi in the street. He asked her if she had become rich, and asked her for the luan of a few dollars She said she was too poor to do so. The Sergeant said "all right" and went away. On the 15th the Sergeant returned and arrested her in Tai Wai Street. She was put in gaol, and in a line with several others. Before doing this Sergeant Pang Loi told the witness that the woman who had lost two front teeth was the person wanted. In this way, the witness pointed

her out. She had nothing more to say.

Prisoner was fined £10, in default three months in gaol with hard labour. THE SERIOUS ASSAULT CASE. The case in which C. PERSONATING A CONSTABLE. George Cannon, a seaman belonging to the American ship Twilight, apparently moved by the refrain of the good old song of "A fine life leads the Bobby," proceeded early this morning to fulfil the duties of a P.C. without the form of enlistment. The first party he tried to palm himself on was a genuine P.C., who misbelieving his story was unfeeling enough to arrest him. The Magistrate had compassion on the ma-

riner and discharged him.

THEFT OF A PAIR OF SHOES. Lo Wing, accountant of the Tak Tai shop in Wellington Street, gave evidence to the effect that yesterday between three four p.m., while superintending some workmen in the building of a house in Bonham Road, he saw defendant come out of the house in question. As he was a suspicious character witness searched him and found the shoes in his waist-band. He handed him over to a P. C. The shoes belonged to witness.

Defendant said the shoes were his. He was sentenced to two months' imprisonment with hard labour as a rogue and vagabond.

BURGLARY AT YAU-MAH-II. The case of Lau Ion, Lai Ashun, and Lau Afat, remanded from the 29th, was concluded to-day, when Inspector Cameron gave evidence as to the arrest of the prisoners and the recovery of the goods.

First prisoner had been in gaol before. Prisoners were committed for trial at the Criminal Sessions.

THE GERMAN TREATY WITH CHINA.

The official correspondence already published concerning the German Convention with China has disposed of all doubt as to part of Germany in Treaty negotiations. What has been obtained is the result of the combined action of the Treaty Powers. In an article referring to some of the provisions ... time Register commonts as follows:-

In the English Treaty, in so far as regards commercial transactions, it was agreed that-"British subjects shall pay, on all merchandise imported or exported by them, the duties described in the tariff, but in no case shall they be called upon to pay other or higher duties than are required of the subjects of any other foreign nation.' Art. 26 acknowledges that the 5 per cent. ad valorem imposed by the Treaty of Nankin had been found in practice, by reason of the fall in value of various articles of merchandise, to be excessive, and a revision was to take place. In pursuance of that undertaking, a tariff of dues on imports and exports was issued, and either of the high contracting parties were at up the death of two murderers said he'd liberty to demand a rectification of the rates so levied at the end of ten years; but if no application for alteration should be made, the scale was to remain in force for a second period of ten years, and so on, successively, till notice was given of the termination of the Treaty. The tariff was made applicable to the British and Chinese only, and did not, of course, include the non-treaty Powers. After the settlement of the Angle-Chinese scale of duties, the Governments of several Maritime States entered into Conventions with the Celestial Empire, and those who secured favoured nation treatment participated Majesty. Whatever favour may be port or export to foreigners must be allowed to British subjects in their trading transactions with China. It is confidently anticipated that when the Chinese are freed from the heavy expenditure of maintaining large armies for the protection of their frontiers from Russian aggression, and her coal-fields are worked by modern machinery, the resources of the Empire will

TEALTH, STRENGTH, & ENERGY DR.LANEOR'S

Trade Mark-PHOSPHODYNE. DISCOVERED AND SO NAMED, A.D. 1862 BY R. D. LALOR, M. D.

DR. LALOR'S PHOSPHODYNE is & Pure Solution of PHOSPHOROUS in combination with the Vegetable Alkaloids Quinia, Cypripedin, Xanthoxylin, &c., prepared by a Chemical process known only to DR. LALOR, producing a remarkably Elegant and Pleasant Tasted Preparation, equal to the best Wines, Prefectly free from Strychnia and all other Dangerously Active Drugs; superseding the numerous objectionable forms of Phosphorous Pills, Pilules, Oils, and other Nauscous Mixtures with which the Market has been flooded since the Phosphoric Treatment of Disease was first made Public by DR. R D. LALOR. in 1862.

-To Residents in India, China, and the Colonies, it will prove invaluable as a RELIABLE Liver Tonic and a Vitalizing Restorative.

This Phosphatio combination, the Wonder of Modern Chemistry, is pronounced by the mos eminent members of the Medical profession to be unequalled for its power in replenishing and elaborating the Vitality of the Body; by its supplying all the essential constituents of the BLOOD, BRAIN, and NERVE SUBSTANCE; and for developing all the Powers and Functions of the system to the highest degree; by its being agreeable to the palate, and innocent in its action. While retaining its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the PRESENT AGE, for the SPEEDY and PERMANENT CURE of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatalence, Nervous Fancies, Hypochondria, Nervous Debility in all its Stages, Loss of Memory, Softening of the Brain, Paralysis, Affections of the Spinal Column, Lumbago, Scintica, Affectious of the Kidneys, Bladder, Urinary Deposits, &c., Ague, Spasms, Asthma, Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Rickets (in children), Wasting or Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid conditions of the system, dependent upon the deficiency of THE VITAL FORCES, whether witning from Climate, Brain Fag, or whatever

Dr. LALOR'S PHOSPHODYNE being a natural RESTORATIVE, its Energising Effects are not followed by corresponding re-action; but are PERMANENT; and are frequently shown from the first day of its administration by a remarkable increase of Nervous Power, with a feeling of Vigour, Strength, and Comfort, to which the patient has long been unaccustomed. DR. LALOR'S PHOSPHODYNE gives back to the Human structure in a suitable form the Phosphoric or Lively Animating element of life which has been wasted, and exerts an important infigence directly on the BRAIN, SPINAL MARROW, ARD NERVOUS SYSTEM, of a Nutritive, Tonic and Invigorating character; thereby checking all Wasting of the Vital Fluid, and the more Exhausting Processes of Life, maintaining that Buoyant Energy of the Brain and Muscular System which renders the MIND CHEERFUL, HAPPY, BRILLIANT, and ENERGETIC; entirely overcoming that Dull, Inective and Sluggish disposition which many persons experience in all their actions. A Marvellous Restorative for Brain Toilers, Clergymen, Business Men, and all who are engaged in the Competitive Strug-

PHOSPHODYNE, the Antidote for Climatic Disease. The Bemedial properties of DR. LALOR'S PHOSPHODYNE have spread its fame-throughout every Nation and Country in the World, the natural outcome of which is, that the sale has now become enormous in India, China, Africa, and other Hot Climates. This insteased demand is attributable to the fact of its possessing in the most perfectly assimilable form the essential Vitalising properties of PHOSPHORUS. which reanimates the Exhausted functions of Life when impaired by Heat er other causes. A very large number of Testimonials from all parts of the World freely offered from Distinguished Families, Private Persons, Military, Naval, Scientific and Professional Men who are well known, speak of its marvellous powers in Nervous Debility, WANT OF STAMINA, FEVERS, MALARIOUS DIS-EASES, and as a LIVER TONIC.

PUBLIC NOTICE AND WARNING .- To Medicine Vendors and the Public in Great Britain, India, China, and the Colonies. - DR. LALOR'S PHOSPHODYNE is the only Medicine bearing the name PHOSPHODYNE that has the Senation of the British Government, and for which Her Majesty's Registrar of "Trade Marks " has granted Certificates to DR. LALOR Therefore DR. LALOR'S is the only Leglimate and Genuine PHOSPHODYNE. BEWARE of Mean and Actionable Fraudulent Imitations of my Trude Mark, Phosphodyne with Fictilions addresses that may emanate from Australia or America.

CAUTION.—The Name DR. LALOB'S PHOSPHODYNE is blown in the glass of each bottle, and the Gennine Phosphodyne is manufactured at and is obtainable only direct from Dr. Lalor's Laboratory. NORMANDY BUTTER IN TIN

SPECIAL NOTICE. Those friends who will keep our Butters shall have their names inserted as Importers in our advertisements free of charge if they will advise us of their intention through

their friends here. It has just come to our knowledge that certain parties have been for some time past obtaining our disused Butter tins and refilling them with an inferior class of Butter. We therefore advise our friends to be very careful in purchasing to see that the tins they get have not been tampered with, as all Butters packed at the Beurrerie Normande are warranted not to contain any mixture of other Foreign Butters, but to be pure Normandy, 14my81

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publish. ers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter. The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance. The publication includes papers original

and selected upon the Arts and Sciences Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongelia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially in incorporated with each number. invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavour are made to present a resumé in each number of the contents of the most recen works bearing on Chinese matters. Grea attention is also paid to the Review

department. Notes and Replies are classified tog ther as "Notes" (head references being given, when furnished, to previous Note or Queries), as are also those queries which though asking for information, furnish ne or unpublished details concerning the ma ter in hand. It is desirable to make the Queries proper as brief and as much the point as possible.

The China Review for July and Augus 1875, is at hand. It says that forty-to essays were sent in to compete for the be paper on the advantages of Christianity for the development of a State. All our lear ed societies should subscribe to this scholar and enterprising Review. It is a six paged, bi-monthly, repertory of what seh fars are ascertaining about China. 1 lecture on Chinese Poetry in this volume alone worth the price of the Review. dress China Review, Hongkong .- Norther

Ohristian Advocate (U.S.) Trubner's Oriental Record contains the i lowing notice of the China Review :- " Ti is the title of a publication, the first num of which has lately reached us from Hor kong, where it has been set on foot as some respects a continuation of Notes of Queries on China and Japan, the extincti of which useful serial a year or two ago been much regretted in Europe as well in Chins. The present publication, judg by the number now before us, is intended occupy a position, as regards China and neighbouring countries, somewhat simi to that which has been filled in India by Calcutta Review. The great degree of tention that has been bestowed of late ye upon the investigation of Chinese literatu antiquities, and social developments, to nothing of linguistic studies, has led to accumulation of important stores of infor ation, rendering some such channel of p licity as is now provided extremely deable; and contributions of much inter may fairly be looked for from the memb of the foreign consular services, the Chin Customs' corps, and the missionary bo among whom a high degree of Chir scholarship is now assiduously cultivat and who are severally represented in the number of the Review by papers hi creditable to their respective authors. a paper on Dr. Legge's She King, by Rev. E. J. Eitel, to which the place honour is deservedly given, an excel summary is presented of the chronological l'eking problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of C the Review, if carried out with punctuality C and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecensor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intend-
